

Macintosh Powerbook 5300cs Battery Replacement

A how-to on ejecting and replacing a 5300cs battery.

Written By: noah fischer

Step 1 — Battery

- The battery compartment is located in the front-right side of the laptop. The battery should be located inside this compartment.

Step 2

- To insert the battery, gently slide it into the compartment until it clicks in place.
- To remove, slide the button highlighted in the red rectangle to the right to release the battery and slide it from the compartment.

To reassemble your device, follow these instructions in reverse order.
